#### **Comments:**

## **UNFINISHED BUSINESS:**

The coliform monitoring plan is still being worked on. The sampling rotation plan will be given to Jesse. Ben is making minor corrections, and it will be finished.

Still waiting for traffic-rated meter vault lids ordered from H2 Precast for the GBWD. The cost is approximately \$750. Ben was notified that the wrong order was received and therefore another order was submitted.

Still working on the rate proposal.

New bid for Interwest to replace the fiber cable with armored fiber cable. \$14,467.14 Still gathering more information if they believe the armored cable is worth the money. It is looking like dollar for dollar it would be a worthy investment. I advise having the work ready to go and just do it when the next issue happens to get the “life” out of the recent repair.
